

Electrical Order Form-Round Bobbin

Company:

Signature: _____ Date:

1. Power is provided at outlet and service box only. You must provide extension cords (approx. 20').
2. One shared 120v service is provided. This means 7-8amps is provided to a common household plug. If you need more than one shared 120v service, mark the number of services needed.
3. You determine your electrical needs. If you underestimate and we have to add another service connection for you during the event, we will bill you for that service if available plus late charge.
4. Only the Fair=s electrician will be allowed access to electrical boxes for wiring service connections.

_____ No electric service needed

_____ 208v, three phase, up to 60 amps NEMA 1460 = \$100 each

_____ 208v, single phase, up to 60 amps (aerial) NEMA 1460 = \$100 each (in certain locations only)

_____ 208v, single phase, shared 60 amp NEMA 1460 in the floor box=\$75 each if wiring is done by first party

_____ 120v, single phase distribution box = \$30 each (for excess 120v/20a connections)

_____ 120v, dedicated 20ampp

Please turn into Keri@cdmshows.com who will compile and give to the Fairgrounds.
